1.6 Host City Göynük, Kemer-Antalya

Göynük Canyon

The Canyon sculpted by water over 2 million years, offer an adventure that is vastly different than anything you have experienced before. You will enjoy going through the sets nature has prepared for you while you cool down in crystal clear water that gush out from the mountains. A true fun adventure fort the whole family and friends! Also try what our Zipline tour has to offer you! 40 meters above ground, travelling at speeds that reach 65km/h our GoynuK Canyon Zipline Course consists of 2 lines and a hung bridge that makes you laugh unintentionally as it sways with each step you take.

Kemer City Center (Republic Square)

Cumhuriyet Square (Republic Square) is located in the center of Kemer. It's famous for the Atatürk statue and clock tower.

Official ceremonies, festivals, and concerts are held throughout the year in Republic Square. The square gets crowded in the evening and becomes more colorful as it gets dark.

There are a number of souvenir shops, restaurants, and cafes around the lively square.

Tahtalı Cable Car (Olympos Teleferik)

Following a 4,350-meter track, the Olympos Teleferik cable car takes you up to Mount Olympos (Tahtalı Dağı). The Olympos Teleferik is one of the longest cable cars in the world.

Immediately after departure, you can admire the city of Kemer and the surrounding sea. As it goes higher, more fascinating sights become visible. These include Olympos Beach and the ancient city of Phaselis.

You can admire the charming landscape, the mountain ranges, and from time to time you can spot birds fluttering around.

Explore Antalya's Old Town

Perfectly restored whitewashed and red-roofed Ottoman mansions line the cobblestone streets, now home to a plethora of boutique hotels, souvenir shops, art galleries, and restaurants.

Although it's more a place to simply breathe in the old-world ambience, there are also plenty of small tourist attractions for those who want to sightsee. The main square has a fortress gate and stone-clad clock tower while the 18th-century Tekeli Mehmet Paşa Mosque is worth a look just for its intricate interior tile work. Along Hesaççi Sokak, you'll find the graceful Kesik Minare (truncated minaret). Destroyed by fire in the 19th century, this is all that is left of a building that started its life as a Roman temple, was converted into a Byzantine church, and finally became a mosque.

<https://tvgfbf.gov.tr/wp-content/uploads/2022/07/visa-.pdf>

In order to enter Turkiye, the citizens of the countries for which a visa is requested, determined by the official authorities, must apply in person from our foreign representative offices or apply for an electronic visa. Foreigners coming from countries where we do not have a foreign representative office must apply for a Turkiye visa in person to our representative office, which is accredited to the country of their nationality. In accordance with Turkiye's visa policy, foreign nationals who will apply ex officio from our representatives are required to make an appointment. Otherwise, it may not be possible to enter the foreign representative offices of Turkiye. Below is the list of documents that you need to bring with you and submit to the official authorities after making an appointment.

Required documents...

- Passport or replacement travel document,
- Biometric photo,
- Document showing your income status or the income status of the inviting person,
- Flight and hotel reservation or invitation (from the host)
- Document proving that you will return (Salary slip, bank account, workplace permit etc.),
- Travel insurance.

The required documents mentioned above vary depending on the type of visa you will apply to the representatives. Representative offices have the authority to request more or less documents depending on your situation.

Another method of obtaining a Turkiye visa is the e-Visa, which is obtained online through the system. It is a visa application method that citizens of other foreign countries, except for the countries with Turkiye Visa exemption, can quickly get it from any place where there is internet access. You can start your application by entering your nationality information on the system. According to each foreign country, different lengths of stay, entry options and fees are applied by Turkiye. After entering your nationality information, you can view this information on your screen. Some foreign nationals also require prerequisites. It is an important issue that these prerequisites are provided and accepted by foreign nationals who will visit Turkiye. If any, the personal information field to be opened after the acceptance of the prerequisites must be filled in correctly and completely.

After entering all the necessary information, the application is completed by processing the payment. You can download your electronic visa through the system after your application or by sending a message to your e-mail that you specify in the personal information field.

Due to delays in visa procedures, visa applications should be made at least one month before the planned travel date.

For detailed information, you can visit <https://www.wac2022antalya.com/>.
